Prestige

YOUR RESTAURANT PARTNER

Since 2001

From very humble beginnings Prestige has grown over the last twenty+ years into a highly-respected and reliable supplier of food, wine and catering products to the restaurant and takeaway industry.

In 2017 we launched our online ordering platform 'prestigebuyonline.com', and made a considerable investment in a new stock management system. The combined result is an easy-to-use and flexible system, enjoyed by hundreds of customers right across London and the south east. We even offer a nationwide palletised delivery service which is becoming ever more popular.

We understand not every business wants to work in the same way, so we offer a variety of ordering options and dedicated reps to support all our customers in every way possible.

We deliver free to all postcodes in and around London.

We specialise in pizzerias; all the ingredients, tools, oven fuels and packaging required to run a pizza restaurant, pizza takeaway or mobile pizza business.

We offer a great design and print service for personalised items; pizza boxes, tableware, napkins and greaseproof paper. The design service is free, and we can even take care of your storage needs; keeping everything in our warehouse and delivering to you as and when required.

No matter how big or small your restaurant, pizzeria, coffee shop, mobile food truck or whatever type of catering business you run, we offer a comprehensive and personal service; working together to help you succeed.

Fresh Pasta

Mammama! fresh pasta is a brand exclusive to Prestige.

This delicious fresh pasta is the result of many years of perfecting the recipes that match the traditional Italian home-made pasta taste. Mammama! pasta is made fresh in the UK, using 100% Italian ingredients, including free range eggs.

The cut off time for fresh pasta orders is 3.00pm, 2 days before your scheduled delivery day.

PERSONALISED NAPKINS

Your customers use your napkins for a whole host of reasons - to wipe their hands or face, or mop up a spilled drink, even polish their shoes or wipe away crumbs from their lap. For the most part these napkins end up in the rubbish bin, so they are thought of as a 'throw-away' item.

Personalising your napkins with your logo and/or contact details turns a throw-away item into a valuable marketing tool that can lead to an increase in business.

You never know where your napkins will end up or who will see them, and they can so easily lead to someone making a booking in your restaurant.

They also bring a touch of 'style' to the dining experience, and show your customers that small details are important to you and you want to offer more than just a basic service.

To find out more visit
www.thepizzaboxshop.co.uk
 or call 020 8099 3949.

PERSONALISED PIZZA BOXES & BRANDED ITEMS

A great way to promote your business with every pizza you sell!

We offer a free design, storage and delivery service.

There is a great range of sizes available, from 7" all the way up to a half-metre, in white or brown card with the option of an alluminium lining.

To find out more visit
www.thepizzaboxshop.co.uk
or call 020 8099 3949.

Opposite is a small selection of some of the boxes we already supply to our many very happy customers.

Don't let your pizza box become just another throw away piece of packaging.

KIPUORM

KEEP PIZZA AND TAKEAWAY FOOD HOT

KIPUORM (standard) - Pizza Warming Cabinet PE3437

- Stainless steel - Only requires 40cm x 40cm of counter or worktop space (height approx. 70cm) - Holds up to 12 x 12" pizzas - Fully controllable, adjustable temperature - Reaches desired temperature after just 2 minutes - State-of-the-art insulation technology - Pizza maintains a temperature of 60 degrees even after 20 minutes - Preserves flavour, texture and colour - Less stress for the pizza chef both in the restaurant and takeaway - No more damaging 'cold pizza' reviews

KIPUORM-PLUS - Pizza Warming Cabinet PE3438

- Stainless steel - Only requires 40cm x 40cm of counter or worktop space (height approx. 80cm) - Holds up to 12 x 12" pizzas - Storage section for takeaway food in bags - 2 shelves to help in those extra-busy periods - Fully controllable, adjustable temperature - Reaches desired temperature after just 2 minutes - State-of-the-art insulation technology - Pizza maintains a temperature of 60 degrees even after 20 minutes - Preserves flavour, texture and colour - Less stress for the pizza chef both in the restaurant and takeaway

KIPUORM-DUO - Pizza Warming Cabinet PE3439

Double the size of the standard KIPUORM, with two independently temperature-controlled sections. Ideal for keeping warm different types of food, eg, pizza and pasta.

- Stainless steel - Only requires 40cm x 40cm of counter or worktop space (height approx 1.4m)
- Holds up to 24 x 12" pizzas - Fully controllable, adjustable temperature - Reaches desired temperature after just 2 minutes - State-of-the-art insulation technology - Pizza maintains a temperature of 60 degrees even after 20 minutes - Preserves flavour, texture and colour

KIPUORM-STORAGE STAND CABINET PE3440

- Can be used as a base for any of the KIPUORM range, if no counter space/work surface space is available. A stainless steel cabinet with a dividing shelf, ideal for all types of short-term storage, takeaway bags, cups, etc. Approx. dimensions; w.40cm x d.40cm x h.70cm.

PERSONALISED NAPKINS

Your customers use your napkins for a whole host of reasons - to wipe their hands or face, or mop up a spilled drink, even polish their shoes or wipe away crumbs from their lap. For the most part these napkins end up in the rubbish bin, so they are thought of as a 'throw-away' item.

Personalising your napkins with your logo and/or contact details turns a throw-away item into a valuable marketing tool that can lead to an increase in business.

You never know where your napkins will end up or who will see them, and they can so easily lead to someone making a booking in your restaurant.

They also bring a touch of 'style' to the dining experience, and show your customers that small details are important to you and you want to offer more than just a basic service.

Drinks

A mountain of difference

After a long underground voyage through endless glaciers, Surgiva gushes forth from a mountain spring, in the midst of Adamello Brenta Nature Park, in the heart of the Alps.

Raise the taste

Excellent taste comes in many forms: a delicious dish, a great wine, or a location offering a unique experience. Whichever the form, Surgiva is its perfect match.

Sommeliers' favourite

Thanks to its extremely low fixed residue, Surgiva does not affect the taste of wine during tasting sessions.

Light by nature, sophisticated by character

Surgiva partners perfectly with the masterpieces created by chefs, bringing a touch of elegance to the table.

The importance of reading the label

Surgiva's fixed residue is extremely low at 0.041 g/l. Its sodium content is also minimal, with a figure of 0.0019 g/l. Recent chemical analysis and bacteriological examination performed with the "American method" showed excellent results in terms of purity.

Surgiva is ideal for low-sodium diets and for children's consumption. Its extremely low nitrate content attests the extraordinary purity of the spring.
