# Prestige

Since 2001

From very humble beginnings Prestige has grown over the last twenty+ years into a highly-respected and reliable supplier of food, wine and catering products to the restaurant and takeaway industry.

In 2017 we launched our online ordering platform 'prestigebuyonline.com', and made a considerable investment in a new stock management system. The combined result is an easy-to-use and flexible system, enjoyed by hundreds of customers right across London and the south east. We even offer a nationwide palletised delivery service which is becoming ever more popular.

We understand not every business wants to work in the same way, so we offer a variety of ordering options and dedicated reps to support all our customers in every way possible.

We deliver free to all postcodes in and around London.

We specialise in pizzerias; all the ingredients, tools, oven fuels and packaging required to run a pizza restaurant, pizza takeaway or mobile pizza business.

We offer a great design and print service for personalised items; pizza boxes, napkins and greaseproof paper. The design service is free, and we even take care of your storage needs; keeping everything in our warehouse and delivering to you on demand.

No matter how big or small your restaurant, pizzeria, coffee shop, mobile food truck or whatever type of catering business you run, we offer a comprehensive and personal service, guaranteed to help make it the success you dream of.

## PERSONALISED NAPKINS

Your customers use your napkins for a whole host of reasons - to wipe their hands or face, or mop up a spilled drink, even polish their shoes or wipe away crumbs from their lap. For the most part these napkins end up in the rubbish bin, so they are thought of as a 'throw-away' item.

Personalising your napkins with your logo and/or contact details turns a throw-away item into a valuable marketing tool that can lead to an increase in business.

You never know where your napkins will end up or who will see them, and they can so easily lead to someone making a booking in your restaurant.

They also bring a touch of 'style' to the dining experience, and show your customers that small details are important to you and you want to offer more than just a basic service.
